Who We Are

Stealth Construction is a Houston-based, self-performing commercial and industrial general contractor delivering design-build projects with speed, precision and cost-competitive material sourcing. We self-perform across five divisions — underground utilities, MEP, engineering, vertical building and interior finishes — giving owners a single accountable partner from dirt to turn-key.

Core Capabilities

1 · Underground Utility & Site Work

Dirt-to-pad sitework

- Water, sewer & storm utilities
- Earthwork, grading & excavation
- 40,000-gal fuel systems & tanks
- Demolition
- Asphalt & concrete paving
- Detention & drainage

2 · MEP

Mechanical · Electrical · Plumbing

- Electrical power, panels & wiring
- Plumbing infrastructure
- HVAC / mechanical systems
- Fuel dispensers & canopies
- Site & low-voltage lighting

3 · Engineering & Pre-Construction

Plan it before we pour it

- Civil engineering & site planning
- Surveying & layout
- Design-build & MEP coordination
- Permitting & regulatory affairs
- Estimating & value engineering

4 · Vertical Building

Ground-up commercial & industrial

- Retail & shopping centers
- C-stores & gas stations
- Truck stops & travel centers
- Warehouses — tilt-wall, metal & CMU
- Community & recreational facilities
- Structural concrete, masonry & steel

5 · Interior Finishes

White-box to turn-key

- Flooring & tile
- Drywall, framing & ceilings
- Storefront & glazing
- Millwork & FF&E
- Pylon & building signage

Sectors Served

Retail · Convenience & Fuel · Industrial / Warehouse · Hospitality & QSR · Civic & Recreational · Mixed-Use — available for public & private work (Harris County, Fort Bend County, MUD & ISD districts).
